SUCCESS!

We just sent you an email. Follow the instructions within to link your account to this device.

Step 1

Step 2

Glucose threshold low range: 55-125 mg/dL
Glucose threshold high range: 125-215 mg/dL

Step 3

Push Notification Alert

Ethnicity

Educational Institution Field:
This is a conditional drop-down element.
Based on selection, additional options may appear
Options: College, University, High School, Other

If "College" or "University":
School Name: {Manual Entry}
Expected Grad Year: {Scroll Wheel}

If "High School":
Expected Grad Year: {Scroll Wheel}
Further Education Plan: {Scroll Wheel:
None/College/University/Other}

If "Other":
Education Level: {Scroll Wheel: High School,
Some College, College Degree, Masters

Snapshot:
Launches camera UI, allowing user to take a photo

Upload Photo:
Opens "Photos" app, allowing user to upload a photo from their Camera Roll.

TIMESTAMP RULES

Less than 60 minutes old:
{# minutes since post}m
E.g.

Less than 24 hours old:
{# hours since post}h

Less than 1 week:
{# full days since post}d

Less than 1 year:
{# full weeks since post}w

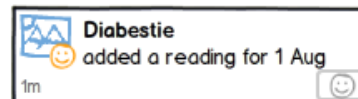

Over 1 year
{# full years since post}y

NOTE: timestamps can update on refresh if necessary.

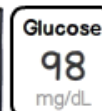

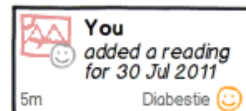

Names: Only first name displayed.

Other post types

Not-shared, back-dated readings

Shared, back-dated readings.

TIME FOR PAST READINGS

Do not display time of day in feed.

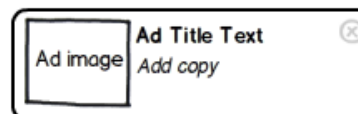

DD MMM for less than 1 year old (e.g. 21 Jun)

DD MMM YEAR for over 1 year (e.g. 12 Jul 2010)

Edited/changed readings do not update in the feed. If anything has changed, the new information is displayed upon query.

If the post has been deleted, an alert is thrown: "This reading has been removed by the user."

Ads

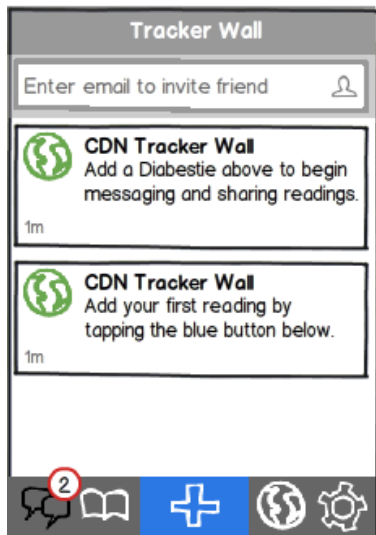

Ads appear inline in the feed. Tapping an add will open its target link in a browser window.

Ads can be dismissed/closed by tapping the "x" button in the upper right of the post.

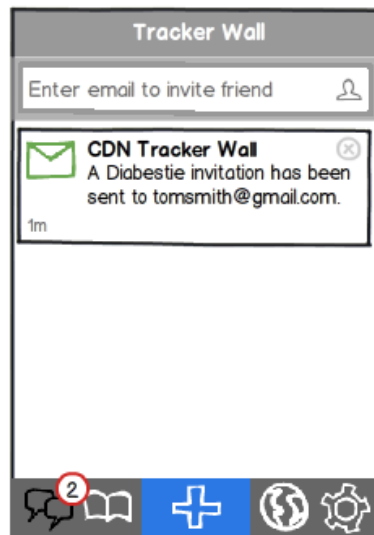

Ads get "buried" by new posts.

Remove Current Diabestie?

This will REMOVE your current Diabestie and all messages between you. This action cannot be undone.

Remove

Don't Do It!

Diabestie Removed You

After Hitting "Done"

Entry Date Format

New Entry Defaults to current time.
Future dates and times must be greyed out

If day is today:
Today {H}:{MM}{AM/PM}
E.g. Today 3:04PM

If NOT today:
{DD} {MMM} {H}:{MM}{AM/PM}
E.g. 27 Jul 5:26PM

This icon in the top right of screen allows user to save from the top part of the entry (for quick adds of BG for current time, etc.)

Insulin Type

- Default to Rapid Acting
- Greyed out if no value (U) above
- If value above, default to Rapid Acting

Tag

Pre-populated based on time:

- Other: 10:00pm-4:59am
- Pre-breakfast: 5:00am-8:59am
- Post-breakfast: 9:00am-10:59am
- Pre-lunch: 11:00am-12:59pm
- Post-lunch: 1:00pm-4:29pm
- Pre-dinner: 4:30pm-6:59pm
- Post-dinner: 7:01pm-9:59pm

Add Note

Only days of the selected month are loaded into the table view.

Persist user Log position in the log for session duration.

New session Log position defaults to "Today"

Future days not displayed in table view.

Jump between months or tap month to bring wheel-based date selection

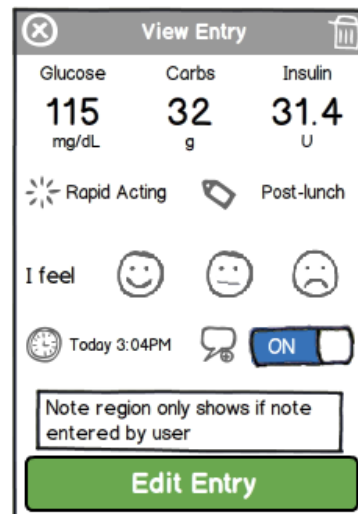

Multiple readings with the same tag (e.g. Pre-lunch) stretch the column for that day as needed

Orange text: values over max threshold
Red text: values under min threshold

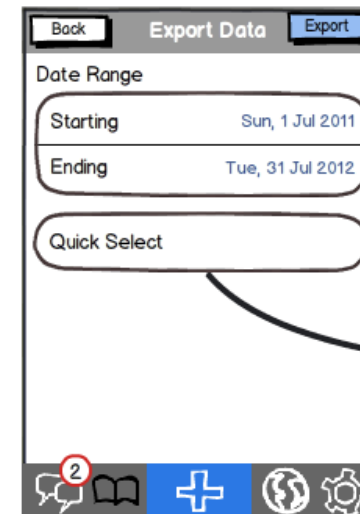

A dot marks that an entry has an entry attached. (May be an icon.)

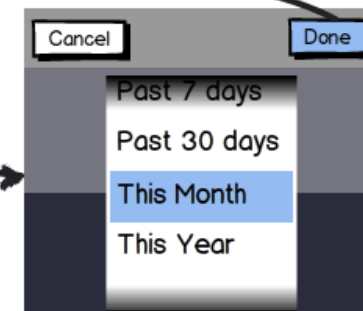

View Entry

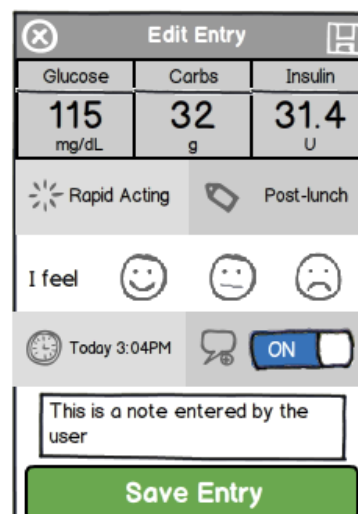

Export Data

"Done" populates Date Range

Edit Entry

This icon in top right of View Entry allows users to delete the current entry. Causes an alert pop-up.

Delete This Entry?

This will permanently remove the entry from your records. This action cannot be undone.
